SUMMARY

Professional with over 2 years of relevant experience in business analysis, business intelligence, product analysis, portfolio analysis, and strategic planning, with responsibility in analyzing business performance, evaluating market opportunities, developing dashboards, supporting product initiatives, and delivering data-driven insights for strategic decision-making. Skilled in SQL, Python, Power BI, Tableau, Microsoft Excel (Power Query & Pivot Tables), financial modeling, market analysis, KPI monitoring, business process analysis, and requirements gathering. Holds a Bachelor's Degree in Physics from IPB University.

WORK EXPERIENCES

PT Amarta Micro Fintech – Riau

Business Manager | Oct 2025 – Apr 2026

- Led and coordinated a team of 7+ members to execute KPI-driven business strategies, aligning business growth targets with risk management objectives.
- Analyzed portfolio performance, revenue projections, delinquency risk, and customer retention to support data-driven lending decisions, contributing to over 100% loan disbursement growth and approximately IDR 1.5 billion in monthly disbursements.
- Managed, validated, and analyzed 2,000+ customer records to generate actionable insights for business planning and operational improvement.
- Developed automated dashboards and performance reports using Power BI and Microsoft Excel (Power Query, Pivot Tables) to support regional management decision-making.
- Evaluated market trends and customer behavior across two branches, contributing to an 8% month-over-month reduction in DPD 0+ through data-driven business strategies.

PT Amarta Micro Fintech – Jakarta

Management Trainee Program | Oct 2024 – Oct 2025

- Supported business, product, and campaign performance analysis across five cross-functional teams by translating operational and market data into strategic recommendations.
- Conducted portfolio segmentation and risk-based allocation for approximately 2,000 funded partners to improve portfolio quality and support sustainable business growth.
- Managed operational data across CRM, loan management systems, and Power BI dashboards to support business monitoring and decision-making.

- Led the implementation of Poket digital payment infrastructure by coordinating cross-functional teams, increasing digital repayment adoption from 58.29% to 73.48%.
- Achieved 99.91% target realization for approximately 300 partner disbursements while maintaining 99.67% attendance through effective operational execution.

The National Research and Innovation Agency of the Republic of Indonesia – Tangerang

Laboratory Analyst - Sustainability Material & Testing | Sept 2023 – Sept 2024

- Built and managed structured sustainability datasets with 65 impact indicators to support evidence-based environmental and operational decision-making.
- Developed and analyzed Life Cycle Assessment (LCA) and Life Cycle Inventory (LCI) models to evaluate production alternatives and optimize sustainability performance.
- Processed and validated large-scale environmental datasets to identify the most efficient production scenarios based on operational and environmental performance.
- Collaborated with PT Vale Indonesia and PT Paiton Energy to deliver sustainability analyses supporting investment planning and environmental reporting.
- Delivered analytical recommendations that contributed to a 40% reduction in greenhouse gas emissions, over 20% improvement in environmental footprint, and 15% carbon reduction through optimized production strategies.

Research Project Assistant with PT Vale Indonesia Tbk | April 2024 – Sept 2024

- Conducted laboratory analysis on six natural material types and generated 50+ structured data points per sample to support material characterization and environmental evaluation.
- Processed and interpreted complex laboratory results, including DSC-TGA, XRF, and calorimetry analyses, to provide actionable insights for material selection and sustainability applications.
- Developed comprehensive datasets supporting evidence-based biomass and soil utilization, contributing to circular economy initiatives and environmental optimization strategies.

INTERNSHIP EXPERIENCE

PT Amartha Micro Fintech – Jakarta

Product Development – AmarthaLink | Apr 2025 – May 2025

- Conducted business, market, and competitor analysis by benchmarking banks and e-wallets to identify product opportunities and define business requirements for digital payment services.
- Analyzed transaction data using Python, SQL, Power BI, Tableau, and Excel to support pricing and business decisions.
- Developed dashboards and delivered data-driven recommendations to support product development and business performance.

PROJECT EXPERIENCES

- Physico-Chemical Analysis of Natural Resources in Sorowako – PT Vale Indonesia & BRIN | Apr 2024 – Sep 2024
- Market Expansion and Business Analyst – AmarthaLink (Fintech Product Unit) | Apr 2024 – May 2024
- Life Cycle Inventory Dataset for Geopolymer Production – BRIN | Nov 2023 – Apr 2024
- Smart Microgrid Design using Organic Rankine Cycle (ORC) | Jan 2023

HARD SKILLS

Google Workspace, Microsoft Excel (Power Query, Pivot Tables), SQL, Python, Power BI, Tableau, Business Analysis, Data Analysis, Business Intelligence, Business Process Analysis, Business Performance Analysis, Financial Modeling, Market Analysis, Portfolio Analysis, Product Analysis, Requirements Gathering, Gap Analysis, Risk Analysis, KPI Monitoring, Dashboard Development, Data Visualization, Strategic Planning, CRM Systems, Asana, Jira, Figma

SOFT SKILLS

Analytical Thinking, Critical Thinking, Problem Solving, Strategic Thinking, Decision Making, Communication, Stakeholder Management, Leadership, Negotiation, Adaptability, Initiative

LANGUAGES

Bahasa : Native

English : Fluent

EDUCATION

Institut Pertanian Bogor

Bachelor of Science | Physics

2020 – 2024

GPA 3.47 / 4.00

Researches

- Research Patent – Salt-Activated Bentonite as a Catalyst in the Production of Liquid Fuel from Plastic Waste (P00202405655) | Jan 2025
- Research Patent – Smart Microgrid Innovation Based on Organic Rankine Cycle and Carbon Capture System for Increasing Electrification and Clean Energy Ratio in 3T Areas (EC00202397643) | Oct 2023
- Research Patent – Method for Producing Geopolymers Utilizing the Pozzolanic Properties of Class F Fly Ash and Silica Glass Powder, Along with the Derived Products (P00202411109) | Oct 2024

Achievements

- Student Exchange Program (PERMATASARI) in Smart Infrastructure | Jan 2022 – Jun 2022
- 2nd Place Winner in Physics at the Indonesian Science Competition (KSI) | Feb 2021

TRAININGS & CERTIFICATION

- Business Analytics for Decision Making | University of Colorado Boulder | Jul 2026
- Data Analyst Project: Business Decision Research | DQLab | Feb 2026
- Fundamental Data Visualization with Python | DQLab | Jan 2026
- Introduction to Data Science | CISCO Networking Academy | Jul 2024
- Certified IT Course Skills for All | CISCO Networking Academy | Jun 2024
- Cyber Threat Management | CISCO Networking Academy | Jul 2024
